## American Sign Language Minor 2021-2022

**The Minor in American Sign Language requires 18 semester hours.**

Our ASL minor is designed to provide an opportunity for students to work toward linguistic competency in ASL, a skill set that can be applied to careers in education, health, recreational services, speech-language pathology, interpreting, and more. While working toward linguistic competency students will also explore the literature, history, and culture of America's Deaf community and its influence on the larger global Deaf community. Students who have an interest in linguistics, language, culture, missions, and social justice issues will find this minor appealing.

Eighteen semester hours in the following courses:

CSD 2301 American Sign Language III

Prerequisite: Minimum grade of C- in CSD 1406

CSD 2302 American Sign Language IV

Prerequisite: Minimum grade of C- in CSD 2301

CSD 3313 Linguistics of American Sign Language

CSD 3312 Deaf Culture (Spring Only)

CSD 4322 ASL/English Interpreting I

Prerequisite: CSD 2302

CSD 3311 American Sign Language V

Prerequisite: CSD 2302
