ROBBINS COLLEGE OF HEALTH AND HUMAN SCIENCES

American Sign Language Minor 2022-2023

The Minor in American Sign Language requires 18 semester hours.

Our ASL minor is designed to provide an opportunity for students to work toward linguistic competency in ASL, a skill set that can be applied to careers in education, health, recreational services, speech-language pathology, interpreting, and more. While working toward linguistic competency students will also explore the literature, history, and culture of America's Deaf community and its influence on the larger global Deaf community. Students who have an interest in linguistics, language, culture, missions, and social justice issues will find this minor appealing.

Eighteen semester hours in the following courses:

CSD 2301 American Sign Language III - Prerequisite: Minimum grade of C- in CSD 1406

CSD 2302 American Sign Language IV - Prerequisite: Minimum grade of C- in CSD 2301

CSD 3311 American Sign Language V - Prerequisite: CSD 2302 (FALL ONLY; JR YEAR)

CSD 3314 ASL Literature and Visual Arts - Prerequisite: CSD 3311 (SPRING ONLY; JR YEAR)

*CSD 3313 Linguistics of American Sign Language (ANY FALL TERM)

*CSD 3312 Deaf Culture (ANY SPRING TERM)

*Please note that CSD 3312 and CSD 3313 do not have prerequisites and may be taken at any time.
